From,

Dr. Elroy Saldanha
Assistant Professor,
Department of Surgical Oncology,
Fr. Muller Medical College Hospital.
Kankanady, Mangalore - 575002

To,

The President,
Indian Association of Surgical Oncology,

Dear Sir,

Sub: Report of my poster presentation at International SSO meeting, Boston

It gives me an immense pleasure to convey that my paper, **“A Prospective Analysis of 168 cases of Total Robotic 3-stage Esophagectomy for Ca Esophagus in a Tertiary Care Cancer Centre”** was well received at Boston SSO meeting on March 22-25, 2023. Some of the International delegates enquired about our work ethic and protocols followed at my center. Also, I am grateful to IASO for providing this opportunity to interact with International delegates. SSO conference gave a lot of insight in terms of protocols followed in rest of the countries and the research work performed with the resources provided. The talks were specific and provided us with latest updates. I attended the talks like role of multimodality therapy in colorectal liver metastasis, surgeon’s role in locoregional management of stage 4 breast cancer, current controversies in gastric cancer, CRS and HIPEC for unusual primaries, management of thyroid nodules, management of extensive PMP, PSM debate on HIPEC for colorectal PM, current management of Desmoids, non-operative management of Rectal Cancer, management of LARS. Besides these, trainees HUB was helpful in providing as a future option for the aspiring fellows in US. I was specifically amazed by the silent HUB auditorium where four sessions were being conducted simultaneously with no voice clash or echoing issues. Interested delegates could scan the code and listen to the concerned talk with handsfree ear buds using the app without any confusion or distortion of quality of the sound. I felt this could be introduced in our future meetings to cut down the costs. We were 4 Indians who were presenting our work at an International platform. I provided an ample opportunity for me to interact with Dr. Devesh Ballal, Dr. Jeevan and Dr. Karthik.

It gives me an immense pleasure to convey to you that I was a team member of Dr. Monica Morrow's team for International Surgical Oncology Quiz Bowl. This was first ever international friendly quiz conducted by SSO and our team stood second in this friendly quiz competition. I had a wonderful opportunity to interact with Dr. Monica Morrow who is the world renowned Breast surgeon and textbook author working at MSKCC (New York), whose text material we read during MCh exams. I have enclosed the pictures of the same along with twitter handle proofs of the SSO.

It was good experience to interact with Dr. Toparani Sir, Dr. Chandramohan Sir, Dr. Chandra Are Sir. Received several guidance from them and several do's and don't's for our career. I am grateful to IASO for providing me this opportunity to present and learn from my experience. Please find the photos being attached in the mail.

Thanking you,

Yours sincerely,

Dr. Elroy Saldanha

Ps: Please find the pictures attached

WITH MY POSTER

PARTICIPATED IN THE FRIENDLY QUIZ COMPETITION AND OUR TEAM STOOD SECOND
