From the Desk of the president

Dear Colleague,

It is an honour to address you from the Desk of the prestigious Presidential Chair of IASO. It was on persuasion by Senior Past Presidents & EC members that I agreed to take up this responsibility being uncontested. Thanks for the faith that they all have in me in my abilities. I will try my best to keep up the good work of my predecessors.

Considering the alarming increase in cancer cases globally, my aim for the coming one year is as follows:

- Increase the drive for **Membership** for IASO, especially in Allied Oncology Specialties like _ Gynae, Uro, Ortho, Breast, ENT where many Surgeons are doing more than 50% Oncological works during their schedule. The future of Cancer Care will be Organ specific and it is high time that we embrace all these societies to make the gamut more complete.
- Since I was chosen to get representation from **Eastern India**, I aim to get more people on board from this region- not only as members but also their active participation in the Scientific conferences. The Trainees should get more involved in presenting through Papers/ Posters/ Videos
- Organize more **Zonal CMEs for Doctors** and also **training sessions for Paramedics** so that the holistic care of Cancer reaches even the remote areas. This can be clubbed with Cancer Awareness programmes which will benefit the Society directly through prevention and early detection
- Our predecessors have already set up tie ups with **SSO** (Surgical Society of Oncology, USA) & **ESSO** (European Society of Oncology) apart from many reputed Institutes in India where young surgeons can go on **Fellowship** through a selection process during NATCON. These are great opportunities and we hope to create more opportunities in future

- Make the **IASO website more interactive** through our team so that we can put up good videos by the doyens in India, and also Orations. Surgical innovations in Indian context will be given priorities. **Indian guidelines** for Cancer Management will also be there (which are in the process of being created by National Cancer Grid)
- Indian Journal of Surgical Oncology should see **more publications** from you all. The data from India, in spite of very good works being done in different Institutes, are lacking
- **Update the IASO Members` Directory** along with photos. We will need your support to contact the members of your region who otherwise cannot be contacted
- Finally, we welcome your suggestions so that we can do many more good things in future. You are free to write to me at drarnabgupta1@gmail.com or IASO Secretariat at iasosecretariat@gmail.com

Looking forward to seeing you in the upcoming MIDCON on 28th Feb- 1st March, 2020 at Tirupati (under the leadership of Dr Narendra Hullikol), NATCON on 18th- 20th September 2020 at Delhi (under the leadership of Dr Rudra Acharya & Dr SVS Deo) and ofcourse the Mega ICC Conference (which is going to be hosted by IASO under the leadership of our Past Presidents Dr Sanjay Sharma & Dr Dhairyasheel Savant) in Mumbai in November, 2021. My best wishes to the Organizers in advance,

Prof (Dr) Arnab Gupta,
President, Indian Association of Surgical Oncology,
Director, Saroj Gupta Cancer Centre & Research Institute, Thakurpukur, Kolkata

Secretary's Message

Dear friends,

Hello Everyone,

I wish you all a very Happy New Year 2020.

This is our first newsletter for the year.

The IASO today stands as an independent Organisation. From now on it is wholly in our hands to build the organisation and forward an approach to a healthy India. Last year, we have opened up the IASO and made it accessible for all Surgical Oncologist. This has helped our membership grow. 2019 was a year which recorded the highest number new members to the society. We added a whopping 157 members in a calendar year. However as data show, we still lag behind and we need to target a new membership of at least 200 individuals per year, looking at the numbers of Surgical Oncologist graduating out every year.

We have numerous other tasks on our hands. A major part of the buildup and revamp should occur in this year. We will also need more Oncosurgeons who dedicate a part of their time exclusively to the association. With advent of sub -sub specialities, there are going to be fewer and fewer generalist Oncosurgeons in the days to come. However we will need the IASO as a parent organisation to help groom numerous sub-subspecialities. With the platform of ICC we need to build bridges with associated associations with whom we interact frequently.

Kolkata was a successful meeting. It was the first independent NATCON by ourselves.

At Tirupati, we will have a record gathering for a MIDCON. I hope it will improve the quality and raise the bar for MIDCON. We will discuss the way forward at our EC meeting during that conference.

I invite you all to Tirupati for the MIDCON and urge you for contribution towards strengthening to build the IASO.

I was supported by the association well in my first year, I hope to get the same for this year.

I will need more guidance and ideas to help implement in the IASO.

Thank you.

IASO MIDCON 2020

Dear IASO Family,

Greetings from Tirupati, the temple town of Southern India and Happy 2020.

On behalf of the Organizing committee, we take immense pleasure in welcoming you to the Midterm Annual Conference of Indian Association of Surgical Oncology at Hotel Fortune select grand ridge, Tirupati from 29th Feb – 01st March 2020 with a day of pre-conference video workshop on 28th February organized jointly by the Departments of Surgical, Medical and Radiation Oncology, Sri Venkateswara Institute of Medical Sciences, Tirupati and Tirupati Oncology Group Andhra Pradesh and hosted by Indian Association of Surgical Oncology ,India.

Sri Venkateswara Institute of Medical Sciences, a tertiary care referral centre and a jewel in the crown of the Tirumala Tirupati Devasthanams, Tirupati, has established itself as a Medical University of repute. SVIMS Cancer Centre has acquired the state-of-art equipment with well recognized faculty & best practices, offers evidence-based patient centered care as well as taken active role in population health management.

MIDCON IASO 2020 is being held at Tirupati for the first time, which we assure will be an academic feast consisting of several guest lectures, panel discussions on hot topics, debates, tips from experts, video and poster/paper presentations with an exposure to newer trends in the field of Cancer Surgery. This one and half daylong conference will provide all of us an open forum to discuss and debate multidisciplinary care of various common cancers and share knowledge and experiences with rest of our colleagues from across the country. This will be an occasion for all of us to expand one's expertise and network apart from an opportunity to seek blessings of the Lord of seven hills Sri Venkateswara Swamy.

Tirupati is a city in the Indian state of Andhra Pradesh. Its Sri Venkateswara Swamy Temple sits atop one of the seven peaks of Tirumala Hills, attracting scores of Hindu pilgrims. Apart from several other temples such as Sri Kapeelatheertha Swamy temple, Tiruchunur Sri padmavathi Temple and Sri Kalahastheswara Temple, Sri Venkateswara Zoological Park with lions and primates is an added attraction. We take pride in welcoming you and your family to this momentous event. We are confident that with the help of your participation and contribution, this will be an unforgettable, fruitful and memorable experience for all of us.

We look forward to meeting you in the temple town of Tirupati

With warm regards,

Dr B. Vengamma
